

How YOU Can Help Brother Rhino!

What can you do to help rhinoceroses?

1. **Blow your horn!** Tell everyone you know that rhinoceroses are endangered and need help.
2. **Give money or time** to an organization that works to save rhinoceroses.
3. **Grow trees!** Black rhinoceroses like Brother Rhino and lots of other animals need native trees, and deforestation hurts these animals. Planting native trees wherever you live helps animals and the environment.
4. **Refuse** to buy anything made with rhinoceros body parts, including ground-up horn.
